TruDefinition® DURATION® Shingles with Patented SureNail® Technology
HOME SWEET HOME

Your home is your sanctuary. It’s the place where you want to feel the most comfortable. Safe. Protected. But no matter how much you love your house, it seems the work is never completely done. And if purchasing a new roof is on your to-do list, it may seem like a daunting task — especially if your roof is already damaged or leaking. Since a roof plays such an important role in protecting you and your family from the elements, you realize that you can’t let the damage get out of hand.

Don’t worry, we know that a roof replacement project is a big, important decision. You can feel confident about choosing our roofing products — Owens Corning has been a recognized leader in the building industry for over 75 years. In fact, we’re America’s most trusted roofing brand. Not only can we help you choose the right shingle and roofing system components, we can also help you select the right contractor for the job — an Owens Corning Roofing Preferred Contractor.

Together we can make this a positive experience — an opportunity, really. This is your chance to choose a roof that not only has outstanding performance, but also has exceptional beauty. So for years to come, you’ll feel great every time you pull in the driveway.

Owens Corning® Total Protection Roofing System®️ integrates engineered Owens Corning®️ components that work together to address these three primary performance areas, critical to a high-performance roof, while also making it easy to understand the importance of each. With Owens Corning, it’s easy to confidently deliver total protection, beauty and peace of mind.

**SEAL.**
HELPS CREATE A WATER-PROOF BARRIER
- Ice & Water Barrier
- Synthetic Underlayment

**DEFEND.**
HELPS PROTECT AGAINST NATURE’S ELEMENTS
- Starter Shingles
- Shingles
- Hip & Ridge Shingles

**BREATHE.**
FOR BALANCED ATTIC VENTILATION
- Intake Vents
- Exhaust Vents

**COMFORT.**
Add comfort and energy performance with proper attic insulation.
It takes more than just shingles to protect a home. It takes an integrated system of components and layers. The Owens Corning® Total Protection Roofing System™ gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof. Ask your contractor to install a Total Protection Roofing System™.

**SEAL.**

**Ice & Water Barrier**
WeatherLock® and Titanium® PSU30 Self-Sealing Ice & Water Barrier products are designed to protect the roof where water has a tendency to collect or flow, including valleys, vents, chimneys and skylights. Ice & water barrier products also help prevent damage from ice damming, when melting and refreezing water can migrate beneath the shingles and lead to premature roof deterioration.

**Synthetic Underlayment**
Synthetic Underlayment provides a secondary barrier between the wood decking and shingles. Designed to help protect against wind-driven rain that can get beneath the shingle.

Owens Corning® synthetic underlayment products include RhinoRoof® U20, ProArmor®, Deck Defense®, Titanium® UDL25, Titanium® UDL30 and Titanium® UDL50 Synthetic Underlayment.

Owens Corning also offer Fiberglas® Reinforced Felt Underlayment.

**DEFEND.**

**Starter Shingle**
Owens Corning® Starter Shingle products are the first step in the proper installation of the shingles. They help provide a clean look with a straight edge at the eave and along the rake edge of the roof. The continuous sealant bead on the product provides a seal between the starter and the first row of shingles. Owens Corning® Starter Shingle products help prevent shingle blow-offs and water infiltration in a vulnerable area of the roof.

**Intake Ventilation**
When used with the proper exhaust ventilation, Owens Corning® VentSure® intake ventilation products help replace the warm, humid air in your attic with cool, dry air to help protect the interior components of your roof system from heat and moisture damage. They also help keep the attic temperature closer to the outside temperature to help eliminate problems such as ice damming and premature shingle deterioration.

**Shingles**
Shingles not only serve as the first layer of defense against the forces of nature, they also help define the character of your home. With innovations such as our patented SureNail® Technology and the multiple granule colors and shadowing used in our TruDefinition® Duration® Shingles, Owens Corning® shingles are designed to bring strength and beauty to your roof.

**Exhaust Ventilation**
Owens Corning® exhaust ventilation components such as VentSure® ridge or off-ridge vents help draw air out of the attic, protecting the roofing system from heat and moisture damage. Optimally designed to work together with our VentSure® intake ventilation products, they help create a balanced flow where warm, humid air is continuously replaced by cool, dry air.

**BREATHE.**

**Synthetic Underlayment**
Owens Corning® synthetic underlayment products include RhinoRoof® U20, ProArmor®, Deck Defense®, Titanium® UDL25, Titanium® UDL30 and Titanium® UDL50 Synthetic Underlayment.

Owens Corning also offer Fiberglas® Reinforced Felt Underlayment.

**Ice & Water Barrier**
**WeatherLock® and Titanium® PSU30 Self-Sealing Ice & Water Barrier**

**Synthetic Underlayment**
*Synthetic Underlayment provides a secondary barrier between the wood decking and shingles. Designed to help protect against wind-driven rain that can get beneath the shingle.**

**Owens Corning® synthetic underlayment products include RhinoRoof® U20, ProArmor®, Deck Defense®, Titanium® UDL25, Titanium® UDL30 and Titanium® UDL50 Synthetic Underlayment.**

**Starter Shingle**
*Owens Corning® Starter Shingle products are the first step in the proper installation of the shingles. They help provide a clean look with a straight edge at the eave and along the rake edge of the roof. The continuous sealant bead on the product provides a seal between the starter and the first row of shingles. Owens Corning® Starter Shingle products help prevent shingle blow-offs and water infiltration in a vulnerable area of the roof.*

**Intake Ventilation**
*When used with the proper exhaust ventilation, Owens Corning® VentSure® intake ventilation products help replace the warm, humid air in your attic with cool, dry air to help protect the interior components of your roof system from heat and moisture damage. They also help keep the attic temperature closer to the outside temperature to help eliminate problems such as ice damming and premature shingle deterioration.*

**Shingles**
*Shingles not only serve as the first layer of defense against the forces of nature, they also help define the character of your home. With innovations such as our patented SureNail® Technology and the multiple granule colors and shadowing used in our TruDefinition® Duration® Shingles, Owens Corning® shingles are designed to bring strength and beauty to your roof.*

**Exhaust Ventilation**
*Owens Corning® exhaust ventilation components such as VentSure® ridge or off-ridge vents help draw air out of the attic, protecting the roofing system from heat and moisture damage. Optimally designed to work together with our VentSure® intake ventilation products, they help create a balanced flow where warm, humid air is continuously replaced by cool, dry air.*
The innovative features of Owens Corning® TruDefinition® Duration® Shingles with patented SureNail® Technology offer the following:

**Breakthrough Design.** Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.

**Triple Layer Protection.** A unique “triple layer” of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.

**Outstanding Grip.** Our enhanced Tru-Bond™ sealant grips tightly to the engineered fabric nailing strip on the shingle below.

**Excellent Adhesive Power.** Specially formulated, wide adhesive bands help keep shingle layers laminated together.

**Exceptional Wind Resistance.** Engineered to deliver 130-MPH* wind warranty performance with only 4 nails. Fewer nails required can mean fewer deck penetrations.

*Not a guarantee of performance in all weather conditions.*
**TruDefinition® Duration® Shingles with Patented SureNail® Technology**

**Bold contrast. Deep dimension. TruDefinition.**

*TruDefinition® Duration® Shingles are specially formulated to provide great contrast and dimension to any roof.* Through the use of multiple granule colors and shadowing, *TruDefinition Duration* Shingles offer a truly unique and dramatic effect. This exclusive combination of color and depth is what makes *TruDefinition Duration* Shingles like no other.

*TruDefinition Duration* Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty* (for as long as you own your home) and a 130-MPH Wind Resistance Limited Warranty*. *TruDefinition Duration* Shingles are produced with StreakGuard* Protection to help inhibit the growth of airborne blue-green algae* that can cause unsightly dark streaks on your roof. Owens Corning provides a 10-year Algae Resistance Limited Warranty.* Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.
Desert Tan
Roofing
Choose a shingle with granules that play up the accent colors on your exterior. Also consider how the shingles’ shadowing can add dimension to your roof.

Trim & Siding
For a striking look, consider a shingle with coloring similar to the boldest exterior trim colors on your home.

Stone Veneer
The colors and textures of the brick or stone on your home’s exterior can also influence your shingle choice. Balance these strong accents with the color and dimension of your shingles.
Before you decide, be sure to ask your contractor about TruDefinition® Duration® Designer Colors Collection Shingles. Or visit www.owenscorning.com/roofing. They can transform the look of your home, coming in colors you won’t find anywhere else.
Driftwood†
Chateau Green†
Teak†
Harbor Blue†
Brownwood†
Colonial Slate†
Similar to the energy-efficient appliances in your home, roofing products can help provide energy-saving qualities. Owens Corning® ENERGY STAR® qualified shingles can help reduce your heating and cooling bills when installed properly. These shingles reflect solar energy, helping to decrease the amount of heat transferred to a home’s interior — and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

Product Attributes

**Warranty Length**

Limited Lifetime** (for as long as you own your home)

** 2016 Laminate Innovation Survey by Owens Corning Roofing and Asphalt, LLC.
† Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
† The amount of Triple Layer Protection® may vary on a shingle-to-shingle basis.
‡ Tu-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing and Asphalt, LLC.
## 40-Year Limited Warranty on commercial projects.
Owens Corning Roofing Platinum and Preferred Contractors are independent contractors and are not affiliates of Owens Corning Roofing and Asphalt, LLC, or its affiliated companies. SureNail® Technology is proprietary with U.S. and foreign protection including U.S. Patent Nos. 6,471,812; 7,846,284; 8,156,704; 8,181,413; 8,240,102; 8,430,983; 8,607,521; 8,623,164; 8,753,551; 8,991,190; 9,121,178; and other patents pending. SureNail® Technology is available only on Owens Corning’ Duration® Series Shingles. SureNail® Technology is not a guarantee of performance in all weather conditions. ENERGY STAR and the ENERGY STAR mark are registered trademarks of the U.S. Environmental Protection Agency.
^ Excludes non-Owens Corning® roofing products such as flashing, fasteners and wood decking.
^^ Available regionally, visit www.owenscorning.com/roofing for details.
Shingles are algae resistant to help control the growth of algae and discoloration.
WANT TO TURN UP THE COLOR ON YOUR ROOF?
