---

1. DeckSeal® is not a part of the Total Protection Roofing System® Warranty. See actual warranty for complete details, limitations and requirements.
2. For roof slopes between 1/4:12 to 2:12.
It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside.

The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.
