SEDONA CANYON

TruDefinition® Duration® Designer Colors Collection Shingles

2017 SHINGLE COLOR OF THE YEAR
2017 SHINGLE COLOR OF THE YEAR

SEDONA CANYON

Inspired by nature, Sedona Canyon is warm and reminiscent of real wood shake shingles, but much more nuanced. Burnt umber, chestnut and butterscotch hues mingle with a twist of calming blue to deliver a color experience that is both grounded and versatile, no matter what the season. TruDefinition® Duration® Shingles come with the advanced performance of patented SureNail® Technology — a technological breakthrough in roofing.

“COLOR IS SUCH AN ENORMOUS INFLUENCE IN OUR LIVES.
It can make us feel happy, it helps welcome us and make us feel more at one with our surroundings.”

Leatrice Eiseman
Executive Director, Pantone Color Institute™

SureNail® Technology

There’s a line between a good shingle and a great shingle.™

It’s the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

Outstanding Grip
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond® sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design
Patented SureNail® Technology** is the first and only reinforced nailing zone on the face of the shingle.

“No Guess” Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Triple Layer Protection™
A unique “triple layer” of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

Double the Common Bond
SureNail® features up to a 200% wider common bond area in the nailing zone over standard shingles.

For more information and to watch our videos on SureNail® Technology, go to www.owenscorning.com/surenail.
It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning® Total Protection Roofing System™ gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.

**Seal**

† SureNail Technology is proprietary with U.S. and foreign protection including U.S. Patent Nos. 6,471,812; 7,836,654; 8,156,704; 8,161,413; 8,240,102; 8,430,983; 8,607,521; 8,623,164; 8,752,351; 8,991,130; 9,121,178; and other patents pending. SureNail Technology is not a guarantee of performance in all weather conditions. SureNail Technology is available only on Owens Corning® Duration Series Shingles.
‡ Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
§ Applies for all areas that recognize Miami-Dade Product Control Section.
# Excludes non-Owens Corning® roofing products such as flashing, fasteners and wood decking.
+ The amount of Triple Layer Protection® may vary on a shingle-to-shingle basis.
