Owens Corning Reference Guide

NAHB/ANSI Approved 2008 National Green Building Standard

Owens Corning's building science expertise and product solutions are backed by over 70 years of building industry experience. From inventing new technologies to turning those innovations into industry transforming products and solutions, we can help you meet the challenges of green building.

When it comes to achieving performance levels within the National Green Building Standard (NGBS), it's about more than green building and sustainability, it's good business.

Owens Corning's selection of building materials contribute to achieving performance levels from Bronze to Emerald.

Selecting the right products puts your project on the right track. Owens Corning has achieved "GREEN APPROVED" status from the NAHB Research Center for many products. This means you can confidently rely on Owens Corning to help you meet the NGBS requirements in many sections.

Owens Corning products contribute to many National Green Building points. A product listing, including qualifying points, is featured in the charts signified by the \circ .

Owens Corning NAHB	Green Approved Products
Product Category	Product
Fiberglass Insulation	Batts, Rolls, & Unbonded Loosefill
Air Sealing/Insulation System	EnergyComplete [™] Flexible Foam Sealant
HVAC Ducting & Accessories	Fiberglass Duct Wrap, Duct Liner & DuctBoard
Extruded Polystyrene Foam Insulation	FOAMULAR® XPS Foam Insulation Products
