Limited Warranty on Roofing Shingles

Limited Warranty
Owens-Corning Fiberglas Corporation ("Owens-Corning") warrants to the original consumer purchaser (Consumer) that its roofing shingles ("Shingles") are free from manufacturing defects that would reduce the usable life of the Shingles. The warranty period commences upon completion of the Shingle application and expires at the end of the warranty period applicable to the type of Shingles installed.

Transferability of the Warranty
This warranty is not transferable.

Remedy
Should the Shingles be otherwise than as warranted during the warranty period, Owens-Corning will pay to the Consumer the prorated reasonable cost of repair or replacement of the Shingles, up to these limits:

Maximum repair or replacement cost to Owens-Corning shall be the replacement cost of the defective Shingles, including labor (exclusive of metal work, flashing or other related work), if the Shingles have been installed for less than twelve months. If the Shingles have been installed for twelve months or more, the reasonable replacement cost will be reduced by a percentage which is based on the number of months elapsed in the warranty period divided by the original warranty period. In all cases the extent of repair or replacement required and the reasonable cost of such repair or replacement will be at the sole discretion of Owens-Corning. Owens-Corning will not pay the costs to tear-off or dispose of your Shingles.

A monetary settlement as described above will be the only remedy available to the consumer for defective Shingles.

Wind Resistance
Shingles classified as "Wind Resistant" shall be resistant to wind damage, after thermal sealing has taken place, at wind velocities up to 60 miles per hour only during the first five years after installation. All Shingles containing a strip of thermal sealing asphalt must be subjected to warm sunlight for several days before full sealing will occur. Shingles installed in the fall or winter may not seal until the following spring. Shingles which do not receive direct sunlight or which are not exposed to adequate surface temperatures may never seal. This is the nature of Shingles and failure to seal under such circumstances is not a manufacturing defect.

In cases where Owens-Corning determines that thermal sealing should have occurred and did not due to a manufacturing defect, Owens-Corning will be liable only for the reasonable cost of replacing blown-off Shingles and the reasonable cost of manually sealing the unsheared Shingles remaining on the roof.

Limitations on Coverage
This warranty does not apply to and Owens-Corning shall not be liable for:

1. Failure of any product used on the roof except those expressly covered by this warranty and manufactured by Owens-Corning.
2. Damage to the Shingles due to causes beyond normal use and service including, but not limited to:
   a. Acts of God, such as hail storms or storms of unusual intensity.
   b. Wind velocities greater than 60 miles per hour.
   c. Traffic on the roof or impact of falling objects.
   d. Improper storage or misuse of the Shingles.
3. Damage to the Shingles caused by inadequate attic ventilation or roof drainage. Ventilation must meet FHA Minimum Property Standards.
4. Damage to the Shingles caused by alterations made after completion of application, including, but not limited to, structural changes, equipment installation, painting, or application of cleaning solutions, coatings, or other modifications.
5. Damage to the Shingles caused by settlement of the building, buckling or cracking of the roof deck, walls, or any other cause.
6. Variations in the color of the Shingles which may occur from the natural positioning of the granular surface material.
7. Any cost incurred for repair or replacement not authorized in writing by Owens-Corning.
8. Damage to the Shingles due to any cause other than manufacturing defects in the Shingles manufactured by Owens-Corning.
9. Damage to the Shingles due to misapplication or failure of materials used as a roofing base.
10. Discoloration caused by algae, fungi, lichen or cyanobacteria.

ANY IMPLIED WARRANTY, INCLUDING WARRANTY OF FITNESS FOR A PARTICULAR USE OR PURPOSE, AND WARRANTY OF MERCHANTABILITY, IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PROVIDED HEREIN UNLESS A SHORTER PERIOD IS PERMITTED BY LAW. OWENS-CORNING SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OR FOR DAMAGE TO THE BUILDING, ITS CONTENTS OR ITS OCCUPANTS. THIS WARRANTY CONTAINS ALL OF THE PROVISIONS OF YOUR REMEDIES FROM OWENS-CORNING. OWENS-CORNING'S LIABILITY IS LIMITED TO THE PROVISIONS OF THIS WARRANTY. WHETHER ANY CLAIM AGAINST IT IS BASED UPON STRICT LIABILITY, NEGLIGENCE, BREACH OF WARRANTY OR ANY OTHER THEORY OR CAUSE OF ACTION.

Some states do not allow limitations of how long an implied warranty lasts or the exclusion of incidental or consequential damages so the above limitations or exclusions may not apply to you.

Notification of Claims
Claims pursuant to this warranty must be submitted in writing, together with proof of purchase of the Shingles and application date, to Owens-Corning World Headquarters, Residential Roofing Products, Toledo, Ohio 43655 within 30 days after discovery of the alleged defect to Shingles. Within 30 days after receipt of the Consumer's written claim, an Owens-Corning representative will contact the Consumer to investigate the claim. This warranty certificate signed by the contractor or dealer and dated as of completion of installation will help establish proof of purchase. Call 1-800-ROOFING for more information regarding Owens-Corning's residential roofing warranty administration.

Modification of this Limited Warranty
This Limited Warranty may not be changed or modified. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
