Limited Warranty on Roofing Shingles

Limitations on the transferability of this warranty are set forth herein.

Introduction
Thank you for your recent purchase of Owens Corning shingles. We believe we manufacture the highest quality and most attractive shingles available anywhere, and that is why we stand behind them with one of the best warranties in the industry. We have attempted to write this warranty in clear, plain English terms, including the limitations and restrictions, so you will fully understand the warranty we are making to you. However, the terms contained herein are subject to change without notice. If anything in this warranty is not clear to you, please call us at 1-800-ROOFING, or visit our Web site at www.owenscorning.com.

Who Is Covered
If you live in the United States or Canada and you are the original consumer purchaser, (i.e., the homeowner, not the installer or contractor) or the first transferee from the original consumer purchaser of one of our shingle products listed below, you are entitled to the benefits of this warranty.

Transferability of This Warranty
You can transfer this warranty one time, anytime during the life of the warranty. For this warranty to be transferred, the homeowner must complete and return the attached Warranty Transfer Card, along with a transfer fee of fifty dollars ($50.00), within sixty (60) days after the date of the real estate transfer to obtain the benefits of this warranty. Proof-of-purchase of the Owens Corning shingles and the installation date must be submitted at the same time you file the warranty transfer. AFTER YOU HAVE TRANSFERRED THIS WARRANTY TO THE PURCHASER OF YOUR HOME, IT MAY NOT BE TRANSFERRED AGAIN. THAT IS, THE PURCHASER OF YOUR HOME MAY NOT TRANSFER THIS WARRANTY TO ANY SUBSEQUENT PURCHASERS.

How Long Are You Covered
The duration of the warranty on the type of shingles you purchased is determined by the chart at the end of this warranty for the specific warranty period that applies to your shingles.

What Is Covered
We warrant that your Owens Corning shingles are free from any manufacturing defects that materially affect the performance of your roof.

What Is Not Covered
Damage to the property due to any cause not expressly covered herein, after our shingles leave our manufacturing facility, are subjected to conditions and handling beyond our control that could affect their performance. This warranty does not cover any problems with non-defective shingles, caused by conditions beyond our control. Some examples of conditions not covered by this warranty include:

1. Acts of God, such as hail storms and winds in excess of wind levels listed in the chart at the end of this warranty.
2. Foot traffic on your roof or damage caused by objects (such as tree branches) falling on your roof.
3. Improper or faulty installation of your shingles — installation must be in accordance with our written installation instructions.
4. Decoloration caused by algae, fungus, lichen, or cyanobacteria (unless covered under the section “What About Algae Resistance?” below).
5. Inadequate ventilation or roof drainage. If you have any questions about appropriate ventilation requirements, please contact us at 1-800-ROOFING.
6. Settlement of the structure of your home or buckling or cracking of the deck over which your shingles are installed.
7. Damage to the shingles by abortions made after completion of application, including structural changes, equipment installation, painting, or the application of cleaning solutions, coatings, or other modifications.
8. Labor costs incurred after the 120 Warranty coverage period has expired.
9. Any costs that you incur that are not authorized in advance by Owens Corning.

Replacement Shingle Variations
As a result of our ongoing efforts to improve and enhance our shingle product line, we must reserve the right to discontinue or modify our shingles, including their colors. We are not liable to you if you make a warranty claim in the future and any replacement shingles you receive vary in color either because of normal weathering or changes in our product line. You should understand that if we replace any of your shingles under this warranty, we reserve the right to provide you with substitute shingles that are commercially available in the right colors and price to your original shingles.

Claims Process
Once a claim under this warranty is made, you need to do so within thirty (30) days after you discover the problem. Just call us at 1-800-ROOFING or send us a letter addressed to Owens Corning, Customer Response Center, One Owens Corning Parkway, Toledo, Ohio 43659. Explain the problem and include proof of purchase for the shingles and the date they were installed on your roof. Shortly after we receive your communication, we will contact you regarding your claim and will walk you through the entire process. To fully evaluate your claim, we may ask you to provide, at your expense, pictures of your shingles and/or shingle samples for us to test. If you have any questions, do not hesitate to write us at the address above, call 1-800-ROOFING or visit our Web site at www.owenscorning.com.

Limitations
ANY IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PROVIDED ABOVE UNLESS A SHORTER PERIOD IS PERMITTED BY LAW.

WHAT IS IMPLIED SHINGLES IS FULLY DESCRIBED IN THE PRECEDING SECTION. "WHAT IS YOUR REMEDY?” YOU ARE NOT ENTITLED TO ANYTHING MORE THAN WHAT IS DESCRIBED IN THAT SECTION UNLESS OTHERWISE COVERED BY THE OPTIONAL OWENS CORNING ROOFING SYSTEM ADVANTAGE" LIABILITY PROTECTION, WHICH IS NOT RESPONSIBLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES, INCLUDING DAMAGE TO YOUR HOME OR TO YOUR HOME’S CONTENTS.

WHAT ABOUT ALGAE RESISTANCE?

Algae is a naturally occurring plant that thrives on the surface of water. As algae grows, it will eventually move onto the surfaces of shingles, building up in a single layer. This is known as algae colonization.

Algae growth can be prevented or controlled by using algae-resistant shingles. Algae-resistant shingles have been treated with substances that inhibit the growth of algae on the shingles. These substances include fungicides, pesticides, and other compounds that are approved by government agencies for use on shingles.

Algae resistance is achieved through the use of fungicides, which are chemicals that prevent the growth of fungi. Fungicides are applied to the shingles during the manufacturing process and are distributed throughout the shingles. The fungicides prevent the growth of algae on the shingles and prevent the algae from spreading to other areas of the roof.

Algae resistance is not a guarantee that algae will not grow on your shingles. However, algae-resistant shingles are designed to slow the growth of algae and reduce the amount of algae that grows on the shingles. This helps to maintain the appearance of your roof and prolong the life of your roof.

Algae resistance is measured by the amount of algae that grows on the shingles over a period of time. This measurement is typically referred to as the algae resistance rating.

Algae resistance is important because algae can cause damage to your roof. Algae can cause shingles to become brittle, which can lead to premature failure of the shingles. Algae can also cause shingles to become discolored, which can make your roof look older than it actually is.

Algae resistance is also important because algae can cause damage to the environment. Algae can absorb nutrients from the air and water, which can lead to pollution. Algae can also cause the growth of other plants, which can lead to the displacement of other plants.

Algae resistance is a key factor to consider when selecting shingles for your roof. It is important to select shingles that are designed to resist algae growth. This will help to maintain the appearance of your roof and prolong the life of your roof.
