PREFERRED PROTECTION LIMITED WARRANTY

HOMEOWNER PORTFOLIO
OWENS CORNING PREFERRED PROTECTION LIMITED WARRANTY

Thank you for your recent purchase of Owens Corning roofing components. We believe that we manufacture the highest quality and most attractive roofing products available anywhere, and that is why we stand behind them with one of the best warranties in the industry. We have attempted to write this warranty in clear, plain-English terms, including the limitations and restrictions, so you will fully understand the coverage you are receiving. However, if anything in this warranty is not clear to you, please visit our Web site at www.owenscorning.com or call 1-800-ROOFING.
PREFERRED PROTECTION LIMITED WARRANTY

HOMEOWNER PORTFOLIO

WHO IS COVERED
To be eligible for this Preferred Protection Limited Warranty, you must live in the United States or Canada and be the original consumer purchaser (i.e., the homeowner, not the installer or contractor) or the first transferee from the original consumer purchaser of a complete roofing system from Owens Corning that is installed on a single-family dwelling with a roof that is no larger than 1500 square feet of roof area. The single-family dwelling must be owned and maintained by the consumer and does not include dwellings such as condominiums, duplexes, zero-lot-line residences, mobile homes, etc., which are shared or owned, or both, with another owner. In addition, the roofing system must be installed over a clean roofing deck and not over existing shingles or other roofing materials.

For your roof to qualify as a complete Owens Corning roofing system, you must have purchased and installed Owens Corning shingles. Any breather-type No. 15 or No. 30 asphalt-saturated felt underlayment and two of the four products listed below:

1. Owens Corning VentSure® ventilation products in conjunction with functional eave and/or ridge vents.
3. Owens Corning Starter Shingle Roll.
4. Owens Corning WeatherLock™ waterproofing underlayment, if required in your state. WeatherLock is mandatory in the shaded areas as indicated on the map below; local weather conditions and the prevailing local building codes may allow for an exception in some areas.

TRANSFERRABILITY OF THIS WARRANTY
If you are the original consumer purchaser of the Owens Corning roofing system, you can transfer the warranty one time, any time during the life of the warranty to the purchaser of your home. For this warranty to be transferred, the homeowner must complete and return the attached Warranty Transfer Card along with a transfer fee of $200 within sixty (60) days after the date of the real estate transfer to obtain the benefits of this warranty.

AFTER YOU HAVE TRANSFERRED THIS WARRANTY TO THE PURCHASER OF YOUR HOME, IT MAY NOT BE TRANSFERRED AGAIN. THAT IS, THE PURCHASER OF YOUR HOME MAY NOT TRANSFER THIS WARRANTY TO ANY SUBSEQUENT PURCHASERS.

HOW LONG ARE YOU COVERED
The duration of your warranty depends on the type of shingles you purchased. See the warranty chart below for the specific warranty period that applies to your shingles. If you make a claim under this warranty that results in a repair of your roof (excluding whole roof replacements), this warranty will be unaffected and will continue to provide you with coverage on your entire roofing system provided that Owens Corning roofing products are used in the repair. However, if you make a claim that results in your entire roofing system being replaced, you will receive the benefits afforded hereunder but this warranty will expire. You will then receive our Owens Corning Limited Warranty with your new Owens Corning roof. However, if you once again install an entire Owens Corning roofing system, you will qualify for a new Preferred Protection Limited Warranty.

TRU PROTECTION® COVERAGE
During the non-proratable period of this warranty, we will pay 100 percent of material and labor costs to repair, replace or recover defective shingles. See the chart below for the specific Tru Protection coverage period that applies to your shingles.

If you also purchase a Tru Protect® attic rafter vent and underlayment vents from Owens Corning, the Tru Protection coverage period listed on the chart below shall be extended by an additional two (2) years.

Under the Preferred Protection Limited Warranty, Owens Corning roofing products share the Tru Protection coverage period of the shingles that they are installed with. For example, if a WeatherGuard HP Roof is applied with a 30-year shingle, the vent will be warranted for a non-proratable Tru Protection coverage period of ten (10) years. After those ten (10) years, the Roof Vent will revert back to the standard warranty (1 year), which means its warranty will have expired. If a WeatherGuard HP Roof is applied with a 30-year shingle, the vent will be warranted for a non-proratable Tru Protection coverage period of ten (10) years. After those ten (10) years, it will revert to the standard warranty (1 year), and then ten (10) years of non-proratable coverage remaining under the pro-rated warranty.

DETAILS OF PRORATABLE AND NON-PRORATABLE WARRANTIES

- **Prorated warranty** - Covers new materials and labor costs for repair or replacement after expiration of the pro-rated period.
- **Non-prorated warranty** - Covers new materials and labor costs for repair or replacement after expiration of the pro-rated period.

Available upon request.

Labor is not included after the non-proratable period is expired.

WHAT IS COVERED
We warrant that your Owens Corning roofing components are free from any manufacturing defects that materially affect their performance on your roof for the warranty period listed for your shingles in the table below.

WHAT IS NOT COVERED
This warranty does not cover any damage to any roofing component due to any cause not expressly described as covered herein. After our roofing components leave our manufacturing facility, they are subjected to conditions and handling beyond our control that may affect the performance of these components. This warranty does not cover: 1. Subjecting your roof to conditions that are not within the control of Owens Corning, such as problems or non-defective component caused by conditions or handling beyond our control. Some examples of conditions not covered by this warranty include:
   1. Acts of God such as hailstorms and wind levels listed in the chart on the previous page.
   2. Damage to or failure of the shingles as a result of damage to or the failure of the underlying roofing structure.
   3. Foot traffic on your roof or damage caused by object(s) (i.e., tree branches) falling on your roof.
   4. Improper or faulty installation of your roofing system components—installation must be in accordance with our written installation instructions.
   5. Discoloration caused by algae, fungi, lichen, or cyanobacteria (unless covered under the section “What About Algae Resistance” that follows).
   6. Inadequate ventilation or roof drainage. If you have any questions about appropriate ventilation requirements, please contact us at 1-800-ROOFING.
   7. Settlement of the structure of your home or building or eroding of the deck over which your shingles are installed.
   8. Damage to the shingles caused by alterations made after completion of application, including structural changes, equipment installation, painting, or the application of cleaning solutions, coatings, or other modifications.
   9. Any costs that you incur which are not authorized in advance by Owens Corning.

WHAT IS YOUR REMEDY
1. The Protection Coverage Period—During the Tri Protection coverage of this warranty, we will pay you 100 percent of material and labor costs, reasonably determined by Owens Corning, to repair or replace defective roofing components, subject to certain limitations. Specifically, we will not pay for any metalwork, flashings or other related work, and we will not pay for the cost to remove or replace your roofing components.
   2. Prorated Period—Once the Tri Protection coverage period of this warranty has expired, material and labor will be covered, and we will take into account the number of months of use you have enjoyed through the date of your claim and reduce the amount of our payment to you accordingly. That is, we will prorate the amount of your payment through the date of your claim. For example: if you have a 40-year warranty (480 months), and you make your claim in the last month of the 40th year of the warranty (i.e., the 480th month), we will pay you 40/480 of the reasonable cost to repair, replace or recover your affected roofing system components.

WHAT ABOUT WIND RESISTANCE
Your shingles contain two layers of asphalt felt that require direct warm sunlight for several days in order to seal properly. If your shingles are installed during a period of cool weather, they may not be adequately sealed until the season changes or the weather warms. And if your shingles never receive direct sunlight or are exposed to inadequate surface temperatures, they may never seal. Prior to sealing your shingles are more vulnerable to blow-offs and wind damage. This is the fundamental nature of shingles and is not a manufacturing defect; and we are not responsible for any blow-offs or wind damage that may occur prior to sealing having occurred. After your shingles have sealed, however, they will be covered under the warranty if they experience blow-offs or wind damage is due to the weather that occurred. For further information, please contact your local roofing contractor.

HOWEVER, THE COVERAGE AGAINST SHINGLE BLOW-OFFS OR WIND DAMAGE IS SUBJECT TO THE FOLLOWING CONDITIONS:
   1. The coverage against shingle blow-offs or wind damage is limited to a period of one year following the date of installation, and not for the full warranty period of the shingles.

WHAT ABOUT ALGAE RESISTANCE
If the shingles that you purchased were not specifically labeled as “Algae Resistant” (AR), any discoloration caused by algae is not covered by this warranty, unless it is shown that the root of the problem is something other than algae growth.
