

PROCAT[®] **PROFESSIONAL**

LOOSEFILL INSULATION SYSTEM

**MAKE YOUR HOME
COMFORTABLE AND QUIET
WHILE LOWERING YOUR
HEATING AND COOLING BILLS.**

Did you know

More than 90% of U.S. homes are under-insulated!²

You may be paying higher energy bills than you should be. Ensure that your home is energy efficient by adding attic insulation and sealing air leaks.

The Solution

Advanced Thermal Protection

With the Owens Corning® ProCat® Professional Loosefill Insulation System, you'll experience superior thermal performance – making your home comfortable and quiet. The advanced insulation system means that you'll have consistent temperatures room to room for a more comfortable home.

- Advanced formula supports a comfortable, quiet and healthy home.
- Helps create a more energy-efficient, draft-free home.
- Virtually no settling to ensure thermal performance
- Limited lifetime warranty³

Professional Insulation System

The ProCat® System fights wind wash and energy loss at the eaves, reducing the chance of ice damming and potential roof damage.

Help Protect Your Investment

It takes a complete system – including proper ventilation and insulation products to maximize performance.

With a properly insulated and ventilated home, you'll be able to manage and mitigate excess heat and humidity more effectively and help extend the life of your home.

- Insulation + ventilation will help protect against ice dams, sagging roof decks and premature roof failures. The reduced attic moisture helps prevent potential insect infestations, mold or fungi growth, corrosion and interior damage
- ProCat® Professional Loosefill Insulation is guaranteed to maintain its insulating power for the lifetime of the home
- ProCat® Professional Loosefill Insulation System helps you save money, while also extending the life of your home
- Non-corrosive
- Low dust formula
- Increase noise control

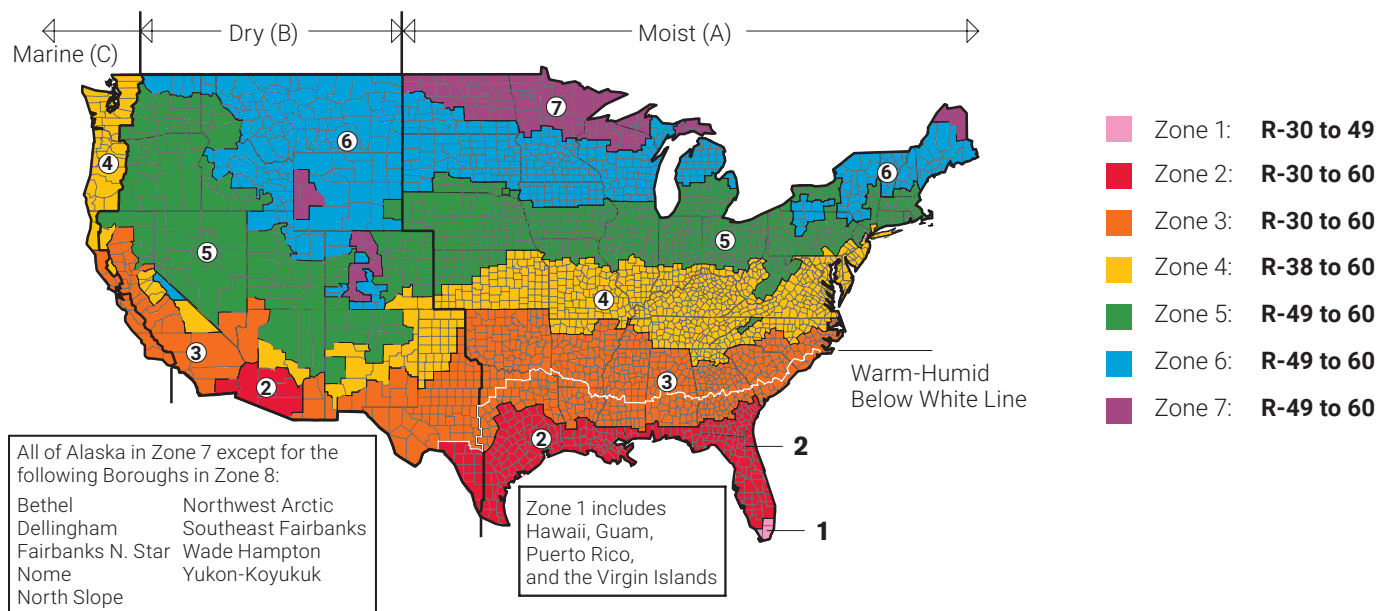

Wellness and Safety

The Owens Corning® ProCat® System provides another level of safety for your home, helping to protect against everything from mold and pests, to fire and smoke spread in the case of a fire.

- ProCat® Professional Loosefill Insulation will not absorb moisture; it is not a nutrient source for mold and fungi or a food source for pests
- ProCat® Professional Loosefill Insulation is GREENGUARD Gold certified
- ProCat® Professional Loosefill Insulation meets code requirements for a Class A fire rating, flame spread 0 and smoke developed 0, when tested per ASTM E84/UL-723
- Validated to be Formaldehyde Free

Does your Home Measure up?

U.S. Department of Energy Recommended R-Values for Adding Insulation to an Attic Depending on where you live, you may need up to 20" of attic insulation.

The new Department of Energy map recommends a range of R-values up to R-60. The previous recommendation for most zones was up to R-49.

ALL THIS FROM A BRAND YOU KNOW AND TRUST.

Owens Corning has been a leader in the building industry for over 75 years. Every day, our Building Science experts redefine what is possible delivering high-quality products and services to homes around the globe.

**WE'RE MAKING OUR WORLD A MORE ENERGYEFFICIENT,
MORE COMFORTABLE PLACE TO BE. AND, IT STARTS WITH YOUR HOME.**
