

TITANIUM[®]

TOUGH UNDER METAL

THE PREFERRED HIGH-PERFORMANCE UNDERLAYMENT BRAND

Titanium[®] is one of the most preferred premium synthetic and self-adhered underlayment brands that gives you the best options for your metal roofing job. Engineered tough to stay strong during and after installation, these underlayments are rigorously tested in labs and proven on thousands of roofs. Titanium[®] synthetic and self-adhered underlayments create a durable, weather-resistant barrier under metal roofs, including standing seam panels and metal shingles.

EASY STEEP-SLOPE WALKABILITY

EXCEPTIONAL TEAR STRENGTH

HEAT RESISTANCE UP TO 240°F
