

PRODUCT TRANSPARENCY BIOPREFERRED®

The U.S. Department of Agriculture (USDA) biobased labeling initiative is an element of the U.S. Farm Bill that focuses on increasing the purchase and use of biobased products made from renewable agricultural materials. In order to be certified by the USDA, vendor products are required to undergo biobased product testing by an accredited laboratory. Owens Corning's certified products are listed in the USDA's BioPreferred® Program Catalog and eligible for preferred federal purchasing.

Current products have received a USDA Certified Biobased Product label:

- Owens Corning® PINK Next Gen® FIBERGLAS™ Batt & Roll Insulation – Unfaced
- Owens Corning® PINK Next Gen® FIBERGLAS™ Batt & Roll Insulation – Kraft Faced
- Owens Corning® PINK Next Gen® FIBERGLAS™ Batt Insulation – FSK Faced
