

PINK NEXT GEN™ FIBERGLAS™ SOUND ATTENUATION BATTS (SAB) RESIDENTIAL WOOD FRAMED

OWENS CORNING SOUND ATTENUATION BATTS

PINK Next Gen™ Fiberglas™ Sound Attenuation Batts (SAB) are unfaced, lightweight, flexible fiberglass insulation batts, designed to deliver noise control in wall cavities of interior partitions. Manufactured to friction-fit, they are available in 3½- inch thicknesses. Depending on the construction method and components used, SABs can improve STC (Sound Transmission Class) ratings by 2–11 points over an empty cavity.¹

¹ Depending on framing cavity options.

Features:

- Significantly reduce noise transfer and increase the privacy of rooms by adding insulation to open interior walls.
- With an extra ¼" of material the product fits snugly in the wall cavity and stands up better when installed.

Product Information:

Product Code Short Code Dimensions (TxWxL)

1182223	BU120	3.5" x 15.25" x 93"
1182204	BU121	3.5" x 23.25" x 93"
1182201	BU122	3.5" x 15.25" x 105"

Availability:

All codes will be available as a standard offering from all plants.
