ULTRA-PURE®
Spray Foam Insulation

**COMFORT,
PLAIN &
SIMPLE**

ODOR SCAVENGER™ TECHNOLOGY

Odor Scavenger™ technology targets and captures specific molecules, helping minimize off-gassing during and after application.¹

S.A.F.E.™
INSTALLERS
SYSTEM AUTHORIZED
FOAM ENGINEER

S.A.F.E.™ EDUCATED INSTALLERS²

S.A.F.E.™ (System Authorized Foam Engineer) is an optional education program offered to Ultra-Pure® contractors. Following S.A.F.E.™ protocols ensures Ultra-Pure® spray foam insulation is properly installed to facilitate quality control, product performance, and indoor air quality.

FLEX-TEMP™ FORMULATIONS

Engineered to help simplify on-site calibrations with the same performance year-round, so sprayers can spend less time adjusting machines and more time getting the job done.

Ultra-Pure® Spray Foam Insulation

THE COMFORTABLE CHOICE IN SPRAY FOAM

Using Ultra-Pure® spray foam doesn't mean **compromising indoor air quality.** Ultra-Pure® spray foam is designed to minimize odors and VOC emissions before, during and after application. Our exclusive formulations and S.A.F.E.™ educated contractors enable builders to comply with demanding energy codes while helping to minimize off gassing and protect indoor air quality.¹ Our FlexTemp™ formulas are designed to deliver the same performance year-round, so you can expect smooth, inspection-ready results on every job. Ultra-Pure® spray foam with Odor Scavenger™ Technology is a high performance insulation designed to deliver dependable yield in the field.

- **SMOOTH,
CONSISTENT SURFACE**
- **ADVANCED THERMAL
PERFORMANCE**
- **CONTRIBUTES TO
HEALTHIER AIR¹**
- **GREENGUARD
GOLD CERTIFIED**

UL BIO-BASED CERTIFIED

Ultra-Pure® spray foam is UL Bio-Based and naturally low in odor-causing VOCs.

SMOOTH, TACK-FREE FINISH

Rises readily and evenly without excess moisture, for a fast first pass that won't overheat. It goes in smooth with less trimming, and it dries with a tack-free finish that resists dust and debris for clean, inspection-ready results.

MORE SOLUTIONS HIGH STANDARDS

Natural Polymers products give discerning builders and insulation contractors a solution they can feel confident about using and recommending for applications where spray foam is the right choice. Featuring innovative chemistry and a low-VOC product, Natural Polymers Ultra-Pure® spray foam products comply with UL GREENGUARD Gold Certification rigorous standards.¹
