BEST-IN-CLASS BENEFITS

For optimal aesthetics and a chance to **increase productivity up to 21%** (m²/min), upgrade to **TURBOSPRAY™**.

INCREASED PRODUCTIVITY

- Fast wet-out
- Best-in-class conformability
- Quickest consolidation

OPTIMAL AESTHETICS

- Best-in-class laydown/rollout
- Reduction in fiber print
- Improved short-term/long-term waviness
- Smoothest finish/end product

* Third-party external evaluation of a Marine structural liner showed up to a 21% reduction in time/m² versus worst-performing fiberglass option.
