NATURAL-THERM® PRO

Closed-Cell Spray Foam Insulation

ONE PRODUCT ANY PROJECT

Built on a legacy of innovation and refined through real-world experience, Natural-Therm® Pro is engineered with the installer in mind – delivering consistent, applicator-friendly, low-VOC¹ performance to your next residential or commercial project.

EASE IN EVERY BARREL, NO MATTER THE SEASON

Optimized reactivity to perform across a broad range of temperatures and enhanced adhesion on metal and concrete means fewer headaches and more predictable results.

Winter Formulation: Provides exceptional cold-weather performance – even in some of the lowest temperatures in the industry.

Summer Formulation: Helps extend the season with lower processing temperatures that allow for easy spraying in cooler weather.

PROVEN RESIDENTIAL AND COMMERCIAL PERFORMANCE

Extensive testing and credentialing helps expand your bidding opportunities and win more jobs. It checks the boxes inspectors and general contractors care about, so you won't need to switch foams from project to project.

- C1029 Commercial Standard
- NFPA 285 and NFPA 286 Fire Assemblies
- ASTM E331 and ASTM E2357 Air/Water Barrier
- UL GREENGUARD Gold
- Environmental Product Declaration

SUPPORT BEYOND THE DRUM

From on-site troubleshooting to design-stage guidance, our industry-leading team of field technicians and building science experts are ready to help your projects run smoothly, whether you're tackling tight residential timelines or large-scale commercial builds.
