NATURAL-THERM® PRO

Closed-Cell Spray Foam Insulation

THE CI EASY BUTTON

Built on a legacy of innovation and refined through real-world experience, Natural-Therm® Pro delivers the extensive testing, credentialing, and design flexibility you need to complete your next commercial project with ease.

HIGH-PERFORMANCE DESIGN FREEDOM

Enable bold architectural designs with a high R-value continuous insulation solution that conforms to complex geometries, tight transitions, and unconventional details with more flexibility and a thinner profile than rigid insulation solutions.

SIMPLIFIED FOR PREDICTABLE OUTCOMES

Reduce enclosure complexity and execution risk while preserving design intent through construction with a single continuous insulation solution for air, water, and thermal control.

GUIDANCE FROM A LEADER IN BUILDING SCIENCE

Gain confidence in your design decisions with support from Owens Corning and Natural Polymers. Our deep expertise in a wide range of insulation and building enclosure systems allows us to provide objective guidance on your options.

Clear Documentation and Support

- Guide Specification
- Design Guides
- CAD Drawings
- LEED Support
- Illustrations

Proven Commercial Performance

- C1029 Commercial Standard
- NFPA 285 and NFPA 286 Fire Assemblies
- ASTM E331 and ASTM E2357 Air/Water Barrier
- UL GREENGUARD Gold
- Environmental Product Declaration
