

THE OBAMA PRESIDENTIAL CENTER CHICAGO, IL

Owens Corning delivers high-performance insulation solutions through a full line of fiberglass, foam, and mineral wool products and systems.

As part of the design of the Obama Presidential Center, Owens Corning® Thermafiber® RainBarrier® continuous insulation (CI) was installed behind the 225-foot museum tower's granite facade to contribute to fire resistance, moisture management, and thermal performance in a challenging climate and code environment.

With a minimum of 70% recycled content¹, the installed Thermafiber® products contributed to valuable LEED® credits, helping the building earn a LEED® Platinum pre-certification.²

Products Used

- Owens Corning® Thermafiber® RainBarrier® Continuous Insulation

Technical Details

- Floor Count: 8 floors
- Floor Area: 225,000 ft²
