Priority: Expand our training on sustainability to meet the needs of our global sourcing organization

Goal/KPI: 100% of our global sourcing organization will be trained on sustainability through OC Sourcing Way, developed in 2015, and will be required to recertify annually thereafter on practices and expectations.

2019 Progress: The Owens Corning Sourcing Way was written to standardize the process of creating strategies in global sourcing and provides in-depth information on key sustainability categories. When we rolled it out in 2017, all Owens Corning commodity leaders, globally, were trained using this standard. We continue to use it to train new employees in our sourcing organization on understanding the business and key requirements, developing and implementing sourcing strategy, and managing suppliers.
