

U.N. SDG Target Linkage:

Priority: Set clear expectations for sustainability progress by our suppliers

Goal/KPI: 100% of our suppliers in compliance with our Supplier Code of Conduct annually.

Progress: According to our survey results, more than 96% of Owens Corning suppliers are able and willing to comply with all aspects of our Supplier Code of Conduct. Those that could not say they comply are listed as high risk and follow-up management is in place.

2020 = 96%
2019 = 95%
2018 = 95%

Priority: Expand our training on sustainability to meet the needs of our global sourcing organization

Goal/KPI: 100% of our global sourcing organization will be trained and recertified annually on sustainability.

Progress: A tool has been implemented across global sourcing and will be used in category strategies going forward. Training was conducted either in-person or online with 100% of global sourcing members.

2020 = 100%
2019 = 100%
2018 = 100%

Priority: Reduce the greenhouse gas emissions related to our purchased materials and services by collaborating with our suppliers to cut these emissions by 30%.

Goal/KPI: Reduce absolute Scope 3 GHG emissions by 30% from a 2018 baseline.

Progress: In 2020, we showed a 12% reduction in Scope 3 greenhouse gas emissions from the 2018 base year. The reduction in Scope 3 emissions is due to a decrease in downstream transportation and a slight, but not insignificant, decline in business travel and employee commuting due to the COVID-19 pandemic.

2020 Scope 3 emissions = 3,436,945 MT CO₂e
2019 Scope 3 emissions = 3,784,557 MT CO₂e
2018 Scope 3 emissions = 3,883,945 MT CO₂e (base year)
