

# OAKRIDGE<sup>®</sup>

Shingles

Brownwood<sup>1</sup>

Desert Tan<sup>1</sup>

## HIGH PERFORMANCE WITH BEAUTY TO MATCH

Oakridge® laminated shingles provide premium protection and impressive curb appeal. A full double layer in the nailing zone gives Oakridge® Shingles greater integrity and better holding power compared to shingles with single-layer nail zones. And the warm, inviting look in popular colours provides a step-up from traditional three-tab shingles.

**Oakridge® Shingles are The Right Choice® for long-lasting performance and striking beauty.**

### **Oakridge® Shingles offer:**

- Limited Lifetime Warranty<sup>\*†</sup> (for as long as you own your home)
- 177/209 KM/H (110/130 MPH) Wind Resistance Limited Warranty<sup>\*††</sup>
- StreakGuard™ Protection with a 25-year Algae Resistance Limited Warranty.<sup>3/§</sup>

### **Don't let black streaks lower the value or curb appeal of your home.**

Owens Corning blends specialized copper-lined granules, developed by 3M, a leading producer of roofing granules, into our colourful shingles. This helps resist blue-green algae growth.\*

## THE FINISHING TOUCH

### OWENS CORNING® HIP & RIDGE SHINGLES

Owens Corning® Hip & Ridge Shingles are uniquely colour matched to Oakridge® Shingles. The multiple colour blends are only available from Owens Corning® Roofing and offer a finished look for the roof.

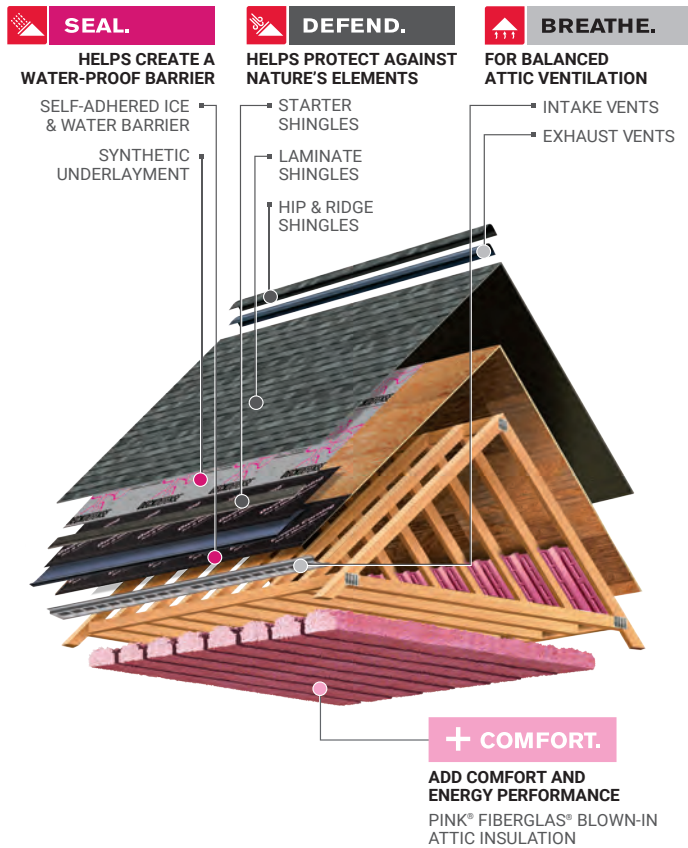

## COLOUR DISCLAIMER

As colour experts, we know getting the shingle colour right is a big part of any roofing purchase. Due to printing colour variations, in addition to viewing shingle literature, we suggest you request an actual shingle sample to see how it will appear on your home and with your home's exterior elements in various natural lighting conditions. Lastly, we recommend you verify your colour choice by seeing it installed on an actual home; your roofing contractor or supplier can provide a sample and may be able to direct you to a local installation.

## TOTAL PROTECTION SIMPLIFIED™

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof.
